

```
// Re-trigger the quest path draw-in
when it scrolls into view
document.addEventListener('DOMContentLoaded', () => {
  const path =
document.getElementById('drawnPath');
  const questMap =
document.querySelector('.quest-map');

  if (path && questMap) {
    const observer = new
IntersectionObserver((entries) => {
      entries.forEach(entry => {
        if (entry.isIntersecting) {
          path.style.animation =
'none';
          void path.offsetWidth;
          path.style.animation =
null;
        }
      });
    }, { threshold: 0.3 });

    observer.observe(questMap);
  }
}
```

```
// Simple mobile nav toggle
(progressive enhancement)
const navToggle =
document.querySelector('.nav-
toggle');
const navLinks =
document.querySelector('.nav-links');
if (navToggle && navLinks) {

navToggle.addEventListener('click',
() => {

navLinks.classList.toggle('open');
});
}
});
```
